

## Greenidge Generation Announces Expiration and Final Results of Tender/Exchange Offer for Senior Notes Due 2026

November 6, 2025

PITTSFORD, N.Y.--(BUSINESS WIRE)--Nov. 6, 2025-- Greenidge Generation Holdings Inc. (Nasdaq: GREE) ("Greenidge" or the "Company"), a vertically integrated cryptocurrency datacenter and power generation company, today announced final results of its previously announced concurrent offers (collectively, the "Tender/Exchange Offer" or the "Offer") to exchange or to purchase, at the election of each holder, its outstanding 8.50% Senior Notes due 2026 (the "Old Notes"), as set forth in the Offer to Purchase/Exchange, dated as of October 6, 2025 (as amended or supplemented from time to time, the "Offer to Purchase/Exchange"), which trade on the Nasdaq Global Select Market ("Nasdaq") under the symbol "GREEL." The Tender/Exchange Offer expired at 5:00 p.m., New York City time, on November 5, 2025 (the "Expiration Date"). Capitalized terms use herein and otherwise undefined have the meaning ascribed to them in the Offer to Purchase/Exchange.

According to the information provided to Greenidge by Computershare Trust Company, N.A., the exchange agent in connection with the Offer, the following aggregate principal amount of the Old Notes set forth in the table below was (i) validly tendered and not properly withdrawn (the "Tendered Notes") as of 5:00 p.m., New York City time, on Tuesday, October 21, 2025 (the "Early Tender Date"), for cash in an amount equal to \$12.50 for each \$25.00 principal amount of Old Notes tendered, plus accrued and unpaid interest in cash up to, but not including the prior interest payment date of October 31, 2025; and (ii) validly tendered and not properly withdrawn (the "Exchanged Notes") as of the Expiration Date for a new series of 10.00% Senior Notes due 2030 (the "New Notes"), in an amount equal to \$14.85 principal amount of New Notes for each \$25.00 principal amount of Old Notes exchanged, plus accrued and unpaid interest in cash up to, but not including, the prior interest payment date of October 31, 2025:

Title of Security	CUSIP Number	Principal Amount Outstanding	Aggregate Principal Amount of Tendered Notes Pursuant to the Tender Option	Aggregate Principal Amount of Tendered Notes Accepted Pursuant to the Tender Option	Aggregate Principal Amount of Exchanged Notes Pursuant to the Exchange Option	Total Aggregate Principal Amount of Tendered Notes and Exchanged Notes Accepted Pursuant to Tender/Exchange Offer	Principal Amount Outstanding Following Final Settlement of Tender/Exchange Offer
8.50% Senior Notes Due 2026	39531G209	\$38,409,825	\$276,225	\$276,225	\$58,300	\$334,525	\$38,075,300

The Tender/Exchange Offer was made pursuant to the terms and subject to the satisfaction or waiver of certain conditions set forth in the Offer to Purchase/Exchange. As of the Expiration Date, all conditions to the Tender/Exchange Offer were satisfied or waived. Upon settlement of the Exchange Offer, which is currently expected to occur on November 7, 2025, subject to the acceptance procedures described in the Offer to Purchase/Exchange, holders of Exchanged Notes will receive an aggregate principal amount of New Notes in an amount equal to \$14.85 for each Exchanged Note accepted, in addition to a stub payment in cash for the fractional portion of New Notes that would otherwise have been issued. Accordingly, on the settlement date, Greenidge expects to issue approximately \$34,606 in aggregate principal amount of New Notes.

As the aggregate principal amount of New Notes is less than the minimum offering required for listing on Nasdaq, Greenidge seeks to list the New Notes under the ticker "GREEN" for trading on the OTC Market's platform. However, as previously disclosed in the Offer to Purchase/Exchange, Greenidge cannot provide any assurances that the New Notes will be tradable or that an active trading market will develop for the New Notes or that holders will be able to sell their New Notes. If the New Notes are traded after their initial issuance, they may trade at a discount from their initial offering price depending on prevailing interest rates, the market for similar securities, the Company's credit ratings, general economic conditions, the Company's financial condition, performance and prospects and other factors. Accordingly, Greenidge cannot make any assurances that a liquid trading market for the New Notes will be sustained, that holders will be able to sell their New Notes at a particular time or that the price holders receive when they sell will be favorable. To the extent an active trading market is not sustained, the liquidity and trading price for the New Notes may be harmed. Accordingly, holders may be required to bear the financial risk of an investment in the New Notes for an indefinite period of time.
